

Diamond Basket

Product:

Category:	Diamond Basket ¹
Product Description:	0. 30 Carat E Color VS1 Clarity Diamond Basket
Product Code:	30EV1

Specifications of Diamond Basket:

Number of Diamonds:	10 diamonds
Minimum Weight:	3.1 carats
Weight Tolerance:	+ .05 carats

Specifications of individual diamonds in Diamond Basket:

Grading Lab(s) accepted:	GIA
Certificate required:	GIA Diamond Dossier
Laser Inscription:	GIA Report Number
Shape of Diamond(s):	Round Brilliant
Size of Diamond(s):	0.30 to 0.39 carat
Color Grade of Diamond(s):	E
Clarity Grade of Diamond(s):	VS1
Cut of Diamond(s):	Excellent
Polish of Diamond(s):	Excellent
Symmetry of Diamond(s):	Excellent
Fluorescence of Diamond(s):	None
Brown, Green, or Milky Shade:	None

Notes

- ¹ A reference to "Diamond Basket" refers to Diamond Basket representing an undivided share in a Pool or Consigned goods
- The Conditions of Original Contract in the Product may be found in Attachment B of Chapter 7 of the Exchange Rules. Reference should also be made to Rule 21 (Risk Factors) of the Depository Account Rules, and Members and their underlying customers are deemed to be aware of and to have accepted the risks set out in Rule 21 (Risk Factors). These risks include risks arising from insolvency (including the absence of finality), import of Physical Diamonds, the pledge and power of sale of the Book Depository over the Member's Specific Diamonds (to the extent provided for in the Exchange Rules), security interests in the Physical Diamonds, limitations of insurance policies, the contractual and non-statutory nature of the Book Depository Register, electronic risks, no advice being provided by the Exchange, the Book Depository or any of their agents, officers or employees, chain of transactions (i.e. intra-day trading), transacting in Products that are Diamond Baskets in a Pool, allocation of Diamond Baskets held in a Pool and the right of the Exchange and the Book Depository to designate that a Pool be allocated, and the limited obligations of the Book Depository in relation to the transfer of title, property, rights and interest to a Product.
- Without being exhaustive of all the risk factors that may apply to dealings on the Exchange Trading System and/or the depository services or limiting any of the foregoing, please note that Products sold by Approved Suppliers could be subject to an Encumbrance in favour of Bank(s) which may only be discharged once the proceeds of the sale is paid into a designated account held with the Bank(s) or otherwise received by the Bank(s). If the Bank(s) enforce(s) its Encumbrance, the transaction may be reversed or unwound even after settlement and a Purchaser for the Product would only have an unsecured claim against the counterparty for any loss or damage. In addition, intra-day trading on the Exchange Trading System may affect more transactions flowing from the transaction with the Approved Supplier. For instance, a Purchaser's transaction may be affected if the Vendor for the transaction is a Member who had purchased the Product from an Approved Supplier.

Notes

- ¹ A reference to "Diamond Basket" refers to Diamond Basket representing an undivided share in a Pool or Consigned goods
- The Conditions of Original Contract in the Product may be found in Attachment B of Chapter 7 of the Exchange Rules. Reference should also be made to Rule 21 (Risk Factors) of the Depository Account Rules, and Members and their underlying customers are deemed to be aware of and to have accepted the risks set out in Rule 21 (Risk Factors). These risks include risks arising from insolvency (including the absence of finality), import of Physical Diamonds, the pledge and power of sale of the Book Depository over the Member's Specific Diamonds (to the extent provided for in the Exchange Rules), security interests in the Physical Diamonds, limitations of insurance policies, the contractual and non-statutory nature of the Book Depository Register, electronic risks, no advice being provided by the Exchange, the Book Depository or any of their agents, officers or employees, chain of transactions (i.e. intra-day trading), transacting in Products that are Diamond Baskets in a Pool, allocation of Diamond Baskets held in a Pool and the right of the Exchange and the Book Depository to designate that a Pool be allocated, and the limited obligations of the Book Depository in relation to the transfer of title, property, rights and interest to a Product.
- Without being exhaustive of all the risk factors that may apply to dealings on the Exchange Trading System and/or the depository services or limiting any of the foregoing, please note that Products sold by Approved Suppliers could be subject to an Encumbrance in favour of Bank(s) which may only be discharged once the proceeds of the sale is paid into a designated account held with the Bank(s) or otherwise received by the Bank(s). If the Bank(s) enforce(s) its Encumbrance, the transaction may be reversed or unwound even after settlement and a Purchaser for the Product would only have an unsecured claim against the counterparty for any loss or damage. In addition, intra-day trading on the Exchange Trading System may affect more transactions flowing from the transaction with the Approved Supplier. For instance, a Purchaser's transaction may be affected if the Vendor for the transaction is a Member who had purchased the Product from an Approved Supplier.

Diamond Basket

Product:

Category:	Diamond Basket ¹
Product Description:	0.30 Carat F Color VS1 Clarity Diamond Basket
Product Code:	50FV1

Specifications of Diamond Basket:

Number of Diamonds:	10 diamonds
Minimum Weight:	3.1 carats
Weight Tolerance:	+ .05 carats

Specifications of individual diamonds in Diamond Basket:

Grading Lab(s) accepted:	GIA
Certificate required:	GIA Diamond Dossier
Laser Inscription:	GIA Report Number
Shape of Diamond(s):	Round Brilliant
Size of Diamond(s):	0.30 to 0.39 carat
Color Grade of Diamond(s):	F

- The Conditions of Original Contract in the Product may be found in Attachment B of Chapter 7 of the Exchange Rules. Reference should also be made to Rule 21 (Risk Factors) of the Depository Account Rules, and Members and their underlying customers are deemed to be aware of and to have accepted the risks set out in Rule 21 (Risk Factors). These risks include risks arising from insolvency (including the absence of finality), import of Physical Diamonds, the pledge and power of sale of the Book Depository over the Member's Specific Diamonds (to the extent provided for in the Exchange Rules), security interests in the Physical Diamonds, limitations of insurance policies, the contractual and non-statutory nature of the Book Depository Register, electronic risks, no advice being provided by the Exchange, the Book Depository or any of their agents, officers or employees, chain of transactions (i.e. intra-day trading), transacting in Products that are Diamond Baskets in a Pool, allocation of Diamond Baskets held in a Pool and the right of the Exchange and the Book Depository to designate that a Pool be allocated, and the limited obligations of the Book Depository in relation to the transfer of title, property, rights and interest to a Product.
- Without being exhaustive of all the risk factors that may apply to dealings on the Exchange Trading System and/or the depository services or limiting any of the foregoing, please note that Products sold by Approved Suppliers could be subject to an Encumbrance in favour of Bank(s) which may only be discharged once the proceeds of the sale is paid into a designated account held with the Bank(s) or otherwise received by the Bank(s). If the Bank(s) enforce(s) its Encumbrance, the transaction may be reversed or unwound even after settlement and a Purchaser for the Product would only have an unsecured claim against the counterparty for any loss or damage. In addition, intra-day trading on the Exchange Trading System may affect more transactions flowing from the transaction with the Approved Supplier. For instance, a Purchaser's transaction may be affected if the Vendor for the transaction is a Member who had purchased the Product from an Approved Supplier.

Diamond Basket

Product:

Category:	Diamond Basket ¹
Product Description:	1.00 Carat F Color VS1 Clarity Diamond Basket
Product Code:	100FV1

Specifications of Diamond Basket:

Number of Diamonds:	3 diamonds
Minimum Weight:	3.1 carats
Weight Tolerance:	+ .05 carats

Specifications of individual diamonds in Diamond Basket:

Grading Lab(s) accepted:	GIA
Certificate required:	GIA Diamond Grading Report
Laser Inscription:	GIA Report Number
Shape of Diamond(s):	Round Brilliant
Size of Diamond(s):	1.00 to 1.15 carat
Color Grade of Diamond(s):	F
Clarity Grade of Diamond(s):	VS1
Cut of Diamond(s):	Excellent
Polish of Diamond(s):	Excellent
Symmetry of Diamond(s):	Excellent
Fluorescence of Diamond(s):	None
Brown, Green, or Milky Shade:	None
